found matches from baptism and marriage records on this site, which is fabulous, I'd like to thank everyone involved in PTG because it has been very helpful. To take the next step though, I need a scan or any information available from these marriage records belonging to two sets of my great-great grandparents:

Parish: Gostycyn; Year: 1859; Book: 780; Picture no.: 040-041; Number: 3; Groom Forename: Johannes; Groom Surname: Szpletstoeser; Bride Forename: Anna; Bride Surname: Woynerowicz;

Parish: Gostycyn; Year: 1865; Book: 780; Picture no.: 050-051; Number: 1; Groom Forename: Jacob; Groom Surname: Prila; Bride Forename: Veronica; Bride Surname: Parczyk / Parszyk ?;

I have found a few other relevant Gostycyn scans on szukajwarchiwach.pl but I don't see these specific books. I tried sending a private message to the user that scanned this book, but they haven't been active on this forum since 2011. Is there anyone able to help, or recommend another user I could contact?

Here is a rough translation of my message from Google Translate:
