Hello,

there are no Sianowo USC file on genbaza becauce USC files started in 1874. Before this time period you can use the Churchbooks.
In the PTG-Index you find the marriage in the book W 1466.
But this book is not online.

You can use the files only in the Archive of Pelplin.
https://diecezja-pelplin.pl/instytucje/archiwum-diecezjalne
On familiysearch.org the files are unfortunately not for common use, because there is no agreement about the use between familiysearch and the archive.

Best regards
