Hello,

I live in the USA and do not speak either Polish (or German). I'm trying to locate records of my ancestors (formerly from Danzig, West Prussia) for my family genealogy tree. I have located some of their records in the database on your PTG site.

The PTG site also indicates that many of the birth/marriage/death records of my ancestors are

records in order to see the dates of events, names of parents, etc.

For your reference, here's one record as an example:
Pomeranian Marriage Indexes
Parish / Registry office Bolszewo - USC
Year 1877
Book 1976/9
Picture no. 10_1976_0_9_0004 10_1976_0_9_0005
Number 3
Groom Forename Johann Vincent
Groom Surname Kankowske
Bride Forename Mathilde Barbara
Bride Surname Gartzke

Please let me know how I may be able to locate these ancestor records in the state archives and also obtain copies of them. Your assistance would be appreciated. Thank you.

Regards,

S Gibbons
